

**Features  
This Issue:**

**Did You Know?  
&  
Data Scale**

**TECH TIP**

For quick calibration of the Datamax I class printer, press and hold the feed button to feed labels. At least one label break needs to pass through the label sensor for proper calibration. When calibrated the printer will display 'Calibration Complete'.

VOLUME 3, ISSUE 1

JANUARY 1, 2010

**Did You Know?**

WeighTech will be displaying products in booth 5463 at the 62nd annual International Poultry Expo in Atlanta, Georgia January 27-29, 2010. The expo features the world's largest display of technology, equipment, supplies, and services used in the production and processing of poultry and eggs and for those involved in feed manufacturing. WeighTech will also be displaying products in booth 6131 at the National Cattleman's Beef Association trade show in San Antonio, Texas January 27-30, 2010.

**Model DS-5000 Data Scale System**

The WeighTech data scale features our industry leading MicroWeigh indicator and stainless steel construction. The data scale features a DATAMAX label printer which is safely located inside a stainless steel enclosure. It can function inline, or stand alone and features communication options such as infrared, RS-232, RS-485, Bluetooth, and wireless Ethernet.

**Who We Are**

WeighTech has over 20 years of experience in the design, development, and service of scales and specialty equipment. WeighTech has earned its reputation as a trusted supplier of reliable and affordable products that meet and exceed customer expectations.
